

Samsung Ultra^{TOUCH}

Introduction to Market

- Q2 2009

Category

- Infotainment/Style/Multimedia

Main Features

- Full touch screen for easy navigation and a 3x4 keypad for convenience when texting and emailing.
- Super bright 2.8" AMOLED screen so you can use your phone even on the sunniest day.
- 8 megapixel camera with Power LED flash, 4 x digital zoom, Smilesot and Antishake means you can take professional like pictures.
- High speed internet access. Up to 7.2 Mbps with HSDPA data connection.
- Drag and drop widgets so you can make your home screen fully customisable.

Other features

- Bluetooth, MP3 player, radio and media player.
- Full accelerometer allows every application to be enjoyed in portrait or landscape.
- 16GB of expandable memory with microSD card and 70MB of internal memory so you can keep all your pictures and music with you.
- Geo-tagging gives you the ability to always know when and where you took that special photo.

Design Features

- The design is sure to make you stand out from the crowd with its ultra thin size and silky back.
- Fluid corners and an understated elegant finish.
- Just 12.7mm think it is sure to fit in any pocket or bag.
